	Orientation for Online Students Panel <i>Speakers to be Announced</i>	Session B
OR		
	Tentative: A Focus on Open Educational Resources (OER)	Session C
03:00 to 03:30	Wrap-up	

Challenges and Successes of Piloting Quality Matters (QM)

Speakers: Amy Archambault, Instructional Designer, Davidson County Community College

Presentation will focus on the pilot program at Davidson County Community College to start using QM and replace the existing quality assessment tool that had been in place. Amy Archambault will share the challenges and successes with the process and where they are in the pilot.

- explain the purpose of the pilot program
- discuss the process used to move away from our homegrown quality assessment to Quality Matters
- discuss the challenges and success with the program
- share where we are in the pilot phase and next steps

The Community of Online reDesigners (CORD)

Speakers: Dr. Jenifer Marquis, DL Lead Course Designers, Suzanne Turcotte, Craven Community College

The Community of Online reDesigners (CORD) is a collaborative, 10-month program focused on the redesign of online courses using the Quality Matters rubric. During CORD, participating faculty attend monthly Community of Practice meetings led by the Director of Distance Learning. Faculty take an in-depth look at the 8 QM standards, implement the standards in their courses, and make revisions after receiving helpful recommendations from reviewers. Final courses become sharable templates and the faculty become DL Lead Course Designers for the college.

- Participants will be introduced to the structure of the CORD program and how it can be used to improve the quality of online courses at their college.
- Participants will also hear from a faculty member who participated in the program and redesigned her course using the QM Rubric. Lessons learned and best practices will be shared.

Tentative: A Focus on Open Educational Resources (OER)

Speakers: TBA

You get a free textbook, you get a free textbook, and you get a free textbook! Everyone wins with OER! Join us as we explore the Open Education North Carolina initiative and learn how you could be eligible to receive a \$1000 grant for adopting an open textbook.
